

The background features a vibrant watercolor illustration of various leaves in shades of blue, purple, pink, and red. The leaves are layered and semi-transparent, creating a soft, artistic effect. Several solid-colored circles in red, purple, blue, and orange are scattered across the page, adding a modern, graphic touch.

NOVEL FOOD

Magon Milena 5[^] B eno
a.s. 2022/2023

Laws:

Novel food means all those foodstuffs and substances without a history of "significant" consumption at 15 May 1997, in the EU, and which, therefore, must submit to an authorisation, to assess their safety, before their placing on the market. One of the novelties of Regulation (EU) 2015/2283 is the centralization of the application for authorisation, which must be submitted.

List of Novel food

Tomatoes, rice, corn, bananas, tropical fruits, spices and coffee have all arrived in Europe as novel food. Among the recent arrivals we find chia seeds and quinoa from South America or the fruit of the baobab from Africa.

Categories of Novel food

Algae, insects, cloned meat, nanomaterials: this is what novel food is all about food products or food ingredients with a new or deliberately modified primary molecular structure; food or food ingredients consisting of or isolated from micro-organisms, fungi or algae.

Italian Cricket Farm

A company based in Scalenghe, Turin, and produces cricket flour as pet food (also breeding flour moths, kaimani, locusts and honey camole) has already submitted a similar application to extend to human nutrition, What makes

Italian cricket Farm?
